## Today's Program

Sorta fell through the cracks. In the absence of President Jen, Secretary (& Past President) Frank presided. We enjoyed a discussion of projects, events, future of our Club, and coming events of both District and International. All in all, a generally good time for socializing.

## Coming Attractions

### May 21 (Monday)

Regular Club meeting, usual time and place. Bring some prospective members.

### June 23 (Saturday)

Membership Pizza Party, with host and cook, secretary Frank. Starts noon at Frank's residence, 230 Wonderwood Drive. Come and bring some new member prospects. But with or without, come, anyway!

### June 28 - July 1

International Convention - New Orleans. Each Kiwanis Club is entitled to two delegates. But you don't have to be a delegate to enjoy the Convention. The only things a delegate can do that a non-delegate can't is sit in the delegates section in business meetings and vote.

### August 24 - August 26

Carolinas District annual convention, this year in Cary, NC. Each Club is entitled to three delegates. But non-delegates have the same privileges as delegates, except seating in delegates' section and voting.

### September 22 (Saturday)

Cow Chip day! At Sam McMahon's back yard, as in all the past years.

and look under the tab "News and Calendar."

If you have not visited our District web site recently, it might be a good idea to do so, anyway!

## International Convention

cranks up in New Orleans next month. Opening session is on June 28, closing on June 30.

If you've never been to one of these gatherings, you ought to try it. You'll be pleasantly surprised at how much you will enjoy it, and how many friendly fellow Kiwanians you will encounter.

And if you have never been to New Orleans, you'll be surprised at just how interesting a city it really is. The French Quarter, of course, is world-famous for its jazz, not to mention its unique and one-of-a-kind appearance - oh, yes, and its FOOD (the eating capitol of the world.)!

More I've learned:

16. Two fish swim into a concrete wall. One says to the other, "Damn."
17. Two hydrogen atoms meet. One says, "I've lost my electron." The other asks, "Are you sure?" "I'm positive."
18. A rubber band pistol was confiscated from an algebra student because it was a weapon of math disruption.
19. Two hats were hanging on the hat rack. One said to the other, "You stay here. I'll go on a head."

--- Stay tuned for some more
